

# OGE's vision of a CO<sub>2</sub>- Transport Network

CO<sub>2</sub>nnecting Europe Conference 2025

Copenhagen, January 16<sup>th</sup>, 2025

**Net-zero is only possible if all the pieces of the puzzle fit together.**

**0**

# OGE's visionary CO<sub>2</sub> - network

- Idea of a German pipeline CO<sub>2</sub> transport system
- **Demand-driven** planning and development provided
- **Integration** of further pipeline projects
- **Connection and linking** various European countries
- OGEs PCI/PMI-Applications: **DRC**, **EU2NSEA** (for NSCC and WHVCC) and **GCTG**, will provide a platform to enable further development into a **trans-European CO<sub>2</sub> network system**.

# OGE CO<sub>2</sub> - network projects

- 1 Elbe cluster**  
Development of a first CO<sub>2</sub> transport system between Lägerdorf, Brunsbüttel and Heide
- 2 WHV CO<sub>2</sub> Corridor**  
Connection of the export projects in Wilhelmshaven of Equinor, TES and Wintershall Dea. Connection to the cement region of East Westphalia and integration of the Ruhr area.
- 3 Delta Rhine Corridor**  
CO<sub>2</sub> and H<sub>2</sub> transport project with BASF, Gasunie and Shell to establish a transport corridor from Ludwigshafen via the Rhine-Ruhr area to Rotterdam.
- 4 North Sea CO<sub>2</sub> Corridor**  
CO<sub>2</sub> Transport Corridor from the Belgian border to Cologne and potentially beyond
- 5 DK CO<sub>2</sub> Corridor**  
CO<sub>2</sub> Interconnection to enable access to the Danish CO<sub>2</sub> storage sites
